Term Oct 2017- Sept 2019

LETTER FROM THE PRESIDENT of The South Central Chapter of ASID

Dear Sponsors, Members and Friends,

2018 has been a huge success with increased attendance at all our design community events and the Chapter Design Summit. It is through your support that we are able to plan programs and actualize our plans for growth and success. Thank you!

We have many exciting events in the works for 2019, that will promote the professions of interior design with our communities, enhance the professional skills of our members and actively engage our student chapters. We have plans to increase our visibility in the communities through volunteerism and partnering with other organizations that have similar missions to ASID. We are also launching a new direction.

The overarching goal is to hold a maximum of three Chapter events throughout the year, one in each state. Every year the Design Summit and Awards Gala will rotate by state to align with one of the three Signature Events. With your help the Chapter Board will be working in close collaboration with each State's Design Community "Signature Event" Committee to make this model successful.

I'd like to invite you to consider becoming a 2019 annual sponsor for the South Central Chapter of ASID. This opportunity to market your brand through our website, social media, printed material and at our signature events supports the chapter, helps strengthen our design communities and advocates for the profession of interior design. It is vital to our success. Thank you for your consideration.

Respectfully yours,

Andrea Cornwell, ASID
President, South Central Chapter
